JEREMIAH AWORETAN

Frontend Engineer

aworetanjeremiah@gmail.com | github.com/jeremy0x | linkedin.com/in/jeremy0x

PROFESSIONAL SUMMARY

Frontend engineer building scalable, high-performance web apps. Experienced in React, Next.js, smart contract integration, API-driven interfaces, and delivering end-to-end features with a focus on usability and performance.

EDUCATION

Akure, Ondo State, Nigeria   **Federal University of Technology**   June 2023 - August 2027

Bachelor of Science in Computer Science

Relevant Courses: Algorithms and Data Structures, Operating Systems, Database Systems, Web Development

RELEVANT EXPERIENCE

Frontend Lead, **Paycrest**   October 2023 - October 2025

- Co-developed Zap and Basepay (Based Africa Hackathon 2024 winners), driving $10K+ in incremental revenue and 65% month-over-month user growth.
- Redesigned and animated the company website (*paycrest.io*) with framer motion, increasing monthly active with over 70% within 2 months.
- Crafted the Paycrest dashboard (*app.paycrest.io*) with Remix.js and TypeScript, enabling 20+ businesses to manage transactions and provide liquidity via the Paycrest Protocol.
- Built and scaled Noblocks (*noblocks.xyz*) from hackathon prototype to production, enabling 95% faster crypto-fiat conversions for 1,000+ users, and boosting Paycrest's TPV.

Frontend Lead, **PineApp Solutions**   November 2024 - May 2025

- Led a 3-member frontend team to deliver 2 revenue-generating platforms, achieving 100% client satisfaction and on-time project completion.
- Managed Jira workflows, deployments, task delegation, and code reviews, reducing development bottlenecks by over 65% and accelerating feature delivery.

Frontend Developer, **ClientView**   April 2023 - October 2023

- Engineered UI for an automated ad platform with a 6-member team, achieving 98% design accuracy.
- Integrated internal and third-party APIs with backend engineers, cutting latency 30% and optimizing responsiveness.

Frontend Developer, **Interllo**   July 2022 - March 2023

- Revamped the company website using HTML, CSS and GSAP, boosting traffic by over 70% within 1 month, and improving page speed by an estimated 85%.
- Designed a tech-training platform with React and Tailwind CSS, attracting 500+ applicants and contributing to a 35% revenue increase in 3 months.
- Launched MVP for Bahamas' first digital restaurant, BahamaFoodie, driving a 73% revenue surge within the first quarter.

FEATURED PROJECTS

Personal Website: www.jeremy0x.dev/projects (for more projects).

Noblocks (*noblocks.xyz*)

- Scaled hackathon prototype (Zap) that streamlines crypto-fiat conversions for 1,000+ users, reducing transaction time by over 95% via integration with Paycrest Protocol.
- **Tech**: Next.js, TypeScript, Privy SDK, Viem, Tailwind CSS, Figma

Paycrest Dashboard (*app.paycrest.io*)

- Official interface for Paycrest Protocol (P2P crypto-to-cash), enabling 20+ businesses to manage real-time transactions.
- **Tech**: Remix.js, TypeScript, Tailwind CSS, Payerest Protocol

SKILLS

Technical: JavaScript, TypeScript, React, Next.js, Remix, Node.js, Flutter, React Native

Tooling: Git, Docker, Vite, Webpack, Rollup, Turborepo, CI/CD pipelines, Storybook, Figma

Competencies: State management, Performance optimization, Accessibility, Testing (unit and integration), Analytics instrumentation, Frontend system design, Smart contract integration
